Date : 6/11/2025
Project : Aetas Seputeh
Reference Number : AVALUXE-AD-MEMO-SM-2025-009
Subject : Pricing & Sales Packages, REA Comm & Referral Scheme (15 Jun 2025 to 31 Dec 2025)

1.0 OBJECTIVE

With reference to the above, we would like to seek Management’s consideration and approval for the following proposed initiatives, aimed at stimulating demand in lower floors and Block B, enhancing the overall sales performance of Aetas Seputeh:

- 1. Price Adjustments
- 2. Proposed Sales Packages
- 3. REA Sales Commission
- 4. Referral Scheme

2.0 BACKGROUND

Based on sales status as at 5/5/2025, there are 40 units with SPA signed & 8 units booked out of 126 units at Aetas Seputeh. Sales take up is slow at Block B & across low floors at both blocks.

3.0 PROPOSALS

3.1 LIST PRICE ADJUSTMENTS

To accelerate sales, we propose an overall price adjustment as follows:

a) STANDARD SPA PRICE

ITEM	DESCRIPTION
1. SPA Price adjustments by Block, Unit Type, and Floor Level (Low / Mid / High)	- A1: 5% - A2: 3% - B1: N/A

	B2: 1%-4% to match B1 price
2. Recalibrate floor premiums	- RM3,000 per floor - at level 20: RM50K jump - at level 30: RM30K jump (as premium units at Tower A are mostly sold)
3. Introduce car park premiums	Using 1 Single + 1 Tandem as the base, add on following premium for additional CP - Tandem 50,000 - Single Bay 50,000
OVERALL INCREASE IN SPA PRICE	RM14,759,000

b) CURRENT SPA PRICE VS REVISED NEW SPA PRICE

Summary of new SPA price as follows:

TYPE	BUA(SF)	AVAILABLE UNITS	CURRENT SPA PRICE				NEW SPA PRICE			
			Min	Max	Min PSF	Max PSF	Min	Max	Min PSF	Max PSF
A1	4,005	15	3,953,800	4,069,800	987	1,012	4,254,800	4,477,800	1,062	1,118

78 Available + 8 Booked		86								

* Current SPA Price is at the max of 90% EF, this price increase will potentially reduce the loan margin
 * Revised SPA Price is within the KPKT pricing

c) FOREIGN SPA PRICE (partially furnished packages & 7% agent commission)

* Only applicable for Block B standard units (excluding GB1 & GB2)

To facilitate the 7% commission to agents and partially furnished packages for foreign markets, we will be factoring the costs into the selling price, ensuring margin protection while supporting expansion into high-potential markets such as Singapore, China, Hong Kong, and Taiwan.

Using the standard increased SPA price, we will do a further mark up on each of the unit as and when it is sold to derive its new **List Price**:

1. 4% to cover agents commission of 7%
2. RM220k to cover partially furnished packages of RM200k

With this mark up, there will be an average of RM62k surplus per unit if we sell to foreigners as compared to our standard packages.

As some of the new List Price will exceed KPKT approval, we will use the Net Price after Discount as SPA Price. (Discount % is the same as the standard unit Rebate %, as per table below)

3.3 REA SALES COMMISSION

To incentivise take-up for Block B—particularly lower floor units—we propose revising the current standard REA commission structure from a flat 3% to a tiered range between 2% to 6%, based on unit type, block, and floor level.

(a) The main target for this proposal is to boost sales for the lower floors to ensure better cash flow and to reach a wider range of buyer groups, including:

- Buyers seeking properties with a net price under RM3.0 million (absolute value)
- Buyers interested in additional rebates or cashback.
- Sellers who can use their existing database to convince clients to buy at a higher price for a higher comm.

(b) Proposed higher commission is also intended to target the overseas market, where foreign real estate agencies are requesting for more commission compared to local agencies. With this proposal, to assess the response and results from external agencies on the 5% commission offered.

- (c) The proposed package does not cover for B-10-01, B-10-02 and B-13A-01. Thus, the proposal only covers for 16 units which specified in the above table.

Reason for not including B-10-01, B-10-02 and B-13A-01:

- B-10-01 and B-10-02 not included in the above proposed package as these are the only garden units in the entire development and have their own unique selling points.
- B-13A-01 was not included in the proposed package above, as a sales inquiry was received for this unit. B-13A-02 is where the water tank located, requiring a different sales strategy to be proposed for B-13A-01 in order to close the deal.

- (d) Below are the net PSF for both Tower A and Tower B (Level 10-19) for strategy comparison.

In the scenario whereby 7% rebate apply on Type A1 and A2. 7% or 11% apply on Type B1 and B2.

Level 10 - 19	A1	A2	B1	B1	B2	B2
Rebate	7%	7%	11%	7%	11%	7%
Net PSF	924	922	877	916	849	887

- (e) The proposed package will be implemented on Tower B first. If successful, a similar package, tailored to the specifics of Tower A will be applied.

However, the initiative did not achieve the intended objectives. We now propose extending the allocation to cover additional units and include both the internal sales team and external agents to drive sales momentum as a final push for FY 2024.
